

PRODUCT INFO:

SPLIT TUBE SAMPLER

Item code SPLIT5035C, The Split-Tube sampler is for taking undisturbed samples in normal soils. The stainless steel tube is split into two longitudinal halves with threaded retainers on both ends to hold the halves together. It is driven into the soil using a Slide Hammer. The end retainers are unscrewed using the C-spanners supplied and the tube halves are easily parted exposing the cored sample. The sampler is available in one size only which is a nominal 50mm with the actual sample size being 40mm by 350mm long sample length.

Options: Coarse thread only; Needs Slide Hammer and Extension Rod to operate.

SPLIT TUBE SAMPLER - stainless steel		Kgs	Price	GST	Total
SPLIT5035C	50mm x 350mm SS split tube & 2 C-spanners	2.7
